Account Number	Weight Group	Registration Year	Office Use Only

This form must be completed to meet the International Registration Plan (IRP) requirements for declaring estimated distance. To retain eligibility for IRP registration, a vehicle in the fleet must accrue distance in two or more member jurisdictions.

Actual distance accrued by the registrant for any vehicle in the fleet during the reporting period must be declared when establishing or renewing an apportioned fleet. "Distance" is the miles or kilometers declared for a jurisdiction. "Reporting Period" means the period of twelve consecutive months immediately prior to July 1 of the calendar year immediately preceding the beginning of the registration year for which apportioned registration is sought.

If no travel occurred for a requested jurisdiction during the preceding July 1 through June 30, a reasonable estimate is required to receive registration authority. The percentage factor for any jurisdictions with a second or subsequent year estimate will be calculated over 100%. Estimates should be for a twelve-month projection. However, if one or more jurisdictions have actual distances for less than twelve months, any estimated jurisdictions should be for a similar time frame.

Method 1 – Known Route of Travel (This form may be copied if additional space is needed or attach a separate piece of paper using the same format.)

Column 1: Jurisdiction requiring estimated distance
Column 2: Entry location for the jurisdiction
Column 3: Exit or destination within that jurisdiction
Column 4: Distance between entry and exit or destination

Column 5: Number of trips per vehicle for this route
Column 6: Multiply the figure in Column 4 by the figure in Column 5

Column 7: Number of vehicles traveling this route
Column 8: Multiply the figure in Column 6 by the figure in Column 7. Transfer the Total Estimate shown in Column 8 to the Mileage Schedule B

1. Jurisdiction	2. Entry Location	3. Exit or Destination Location	4. Distance	5. Number of Trips	6. Total Distance	7. Number of vehicles	8. Total Estimate
				x	=	x	=
				x	=	x	=
				x	=	x	=
				x	=	x	=
				x	=	x	=

If the information provided in Method 1 is incomplete or unreasonable, the estimate(s) will be changed to the Method 2 distances. If, at the time of audit, the fleet is found to have actual distances during the preceding year, fees will be reassessed.

Signature: _____

Date: _____

Method 2 – Unknown Route of Travel (Multiply the distance by the number of vehicles to be registered. Transfer the total to the Mileage Schedule B.)
